

Mahmoud Karout

Junior Software Developer

Hard-working and passionate fresh graduate from the American University of Beirut, aiming to secure an opportunity where I can mobilize my skills acquired through past experiences and self-study in the area of software development, towards advancing your organisation's growth.

EXPERIENCE

Entrepreneur Venture, Lebanon — Web Developer

June 2018 - Jan 2019

- Worked with a team of three developers to build a company directory website for the MENA region using ASP.net MVC
- Designed the database using Microsoft SQL
- Helped the team to overcome many problems

AUB IT Department, Lebanon — Web Developer

Jan 2018 - May 2018

- Worked in agile with a small team of student web developers to help the Chemistry department to digitize their work
- Designed and developed a user friendly website using ASP.net MVC
- Managed to help the department increase their productivity by organizing their storage rooms, and labs.

PROJECTS

Anghami Web App, Lebanon — Web Developer

Jan 2020 - Feb 2020

- A well designed ReactJS web app for visualizing personalized data using Anghami API and async calls.
- View your trending, liked tracks and playlists.
- Developed a proxy server using expressJS

Translator Chat Application, Lebanon — Mobile Developer

Sept 2019 - Dec 2019

- Built an Android application that facilitates chatting by translating the messages sent/received to the user's desired language
- Helped the team design the architecture of the application

Final Year Project — Adversarial Machine Learning

Jan 2019- May 2019

- Adversarial Machine Learning algorithm that tricks Google's Artificial Intelligence "TensorFlow" image classifier by generating an undetectable patch.
- Accepted as a full paper to IEEE AICCSA 2019 in Abu Dhabi
- Preprint available: [Paper](#)
- Video available: [Testing in Store](#)

Address: **Lebanon, Beirut**

Phone Number: **(+961) 70 - 963 955**
